# BASE LAYERS

## BASE LAYERS

Technical base layers are the 1st performance layer as part of the Knox seasonless collection. They are the right foundation giving essential protection from overheating or cold conditions. Dual Active base layers are finished with HYDROCOOL® for enhanced wicking and drying and SILVERPLUS® for antibacterial protection.

## MAX DUAL ACTIVE BASELAYER

Performance first layer. The Max delivers superior moisture transport and impressive levels of breathability, odour resistance and overall comfort and freedom for the active wearer. The result is a technical, soft, comfortable, next to skin base layer. The Mélangé fabric has 2 high performance finishes. HYDROCOOL® for enhanced wicking and drying. SILVERPLUS® giving protection from unpleasant body odours. Machine Washable and dries quickly. Size Range: S - 3XL.

## MIA DUAL ACTIVE BASE LAYER

Performance first layer. The Mia is a women's long sleeve supersoft base layer that delivers superior moisture transport and impressive levels of breathability, odour resistance and overall comfort for the active wearer. The result is a technical, soft, comfortable, next to skin base layer. The Mélangé fabric has 2 high performance finishes. HYDROCOOL® for enhanced wicking and drying. SILVERPLUS® giving protection from unpleasant body odours. Machine Washable and dries quickly. Sizes: XS-2XL - 8-18.

## MORGAN UNISEX DUAL ACTIVE BASE LAYER

Performance first layer. The Morgan unisex long trousers deliver superior moisture transport and impressive levels of breathability, odour resistance and overall comfort for the active wearer. The result is a technical, soft, comfortable, next to skin base layer. The Mélangé fabric has 2 high performance finishes. HYDROCOOL® for enhanced wicking and drying. SILVERPLUS® giving protection from unpleasant body odours. Machine Washable and dries quickly. Size Range: S - 3XL.

# ARMOURED SHIRTS

## ARMOURED SHIRTS

The Collection for 2023 builds on the global success of the Urbane Pro, adding in even more choice and performance levels. There is now an option of armoured shirts for any rider in every climate, as part of the Knox seasonless collection. Options for every Class of CE garment - A, AA, and for the 1st time ever a Class AAA armoured shirt. The Shield AAA Tracksuit looks and feel like everyday sportswear but with ZERO compromise on protection. Matching jogging bottoms available.

**HONISTER- WOMEN'S - BLACK**

CE approved Class AAA garment. The Women's Honister is named after the mountain pass located near Knox where the jacket was developed, tested and made. The Honister jacket is the pinnacle of the armoured shirt collection with the highest ever performance and is part of the Knox Seasonless Collection. Includes the most advanced and discreet Knox MICRO-LOCK Compact moulded armour in the shoulder, elbow and back. This is the thinnest and softest armour developed by Knox. The Women's Honister passes Class AAA CE standard, it is our highest-performance protective garment. Made in the UK. 7...

**HONISTER - MEN'S - BLACK**

**CE approved Class AAA garment.**  
The Men's Honister is named after the tough mountain pass located near Knox where the jacket was developed, tested and made. # ARMOUR

## BODY ARMOUR

Whatever and wherever your customers ride, we've got you covered. Making the 1st back protector for himself and fellow racers is why our founder Geoff Travell started the business back in 1981. It's still an important focus and passion, making body armour that offers those riding on track or the road the best performance and coverage.

## AEGIS BACK PROTECTOR

### CE approved EN1621-2 L2.

The Aegis Back Protector from Knox is a best-selling Level 2 back protector with the largest coverage of protection over the back. Combining honeycomb technology with a tough outer shell the Aegis allows for total freedom of movement, making it the perfect back protector for riders on track. It has the benefit of a removable Machine washable liner for continued freshness and is available in 6 sizes for men and women. An optional Micro-Lock chest protector can be easily added.

## TRACK VEST

### CE approved EN1621-2 L2.

Trusted and worn by Knox Athletes – A CE-approved Level 2 back protector in a gilet without the need for straps. It combines the best-selling Aegis back protector in a comfortable zip-on/off gilet, making it easy to wear and even more comfortable. Designed for the active rider across a range of disciplines that require a high level of comfort, unrestricted movement, and the highest Level 2 performance. An optional chest protector can be added. Sizes S - 2XL.

## KNOX MICRO-LOCK CHEST UPGRADE - WOMEN'S FOR BACK PROTECTORS

### CE approved Level 1.

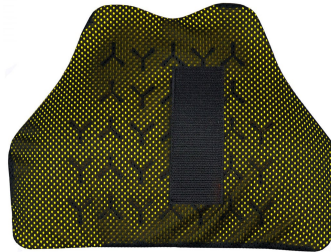

Micro lock chest for women, moulded for female profile, with added breathability. Comes with an added flexible, adjustable TPR piece to secure the chest to any Knox strap on Back protector, making a back and chest combination. Removable and washable mesh cover to keep it clean and fresh.
